Remington 700 sf Bolt Action .223 Rifles

£ 939

MODEL 700 VARMINT SF

Description

Remington 700 VSF .223Rem Built on the famous Model 700 cylindrical action, Remington VSF's are amongst the most accurate factory-built models Remington produce. If you value tiny groups and the big-time weather resistance of stainless steel and synthetic, consider our new Model 700 Varmint Stainless Fluted (SF) an instant treasure. Its 26" heavy-contour barrel is fluted for weight reduction while maintaining rigidity and rapid cooling. We also added a concave dish crown that protects the rifling lands and promotes tack-driving bullet flight. The rugged synthetic stock has overmolded panels for a sure grip and a vented beavertail fore-end that keeps air flowing around the barrel. There are dual front swivel studs for sling / bipod and the barrel is threaded M18x1. On special and available through your local dealer for the remainder of November in .223 for £939. Also available in 22-250, .220 Swift & .308 - RRP £1095
