## Valmont Firearms swiss vetterli Conversion Kit

£ 35

---

---

### Description

Swiss Vetterli Conversion Kit - RF to CF If you own a swiss vetterli rifle and need to convert it from rimfire to centre fire then this is the kit for you, you will get 1 x firing pin and 1 x Teflon carrier. Fitting is very easy, as all the guns are slightly different we have made them over sized and you will simply need to sand them down slightly to fit your gun and drill a hole for the pin and you're done. These are made from high impact teflon on a lathe. ( not 3d printed ) as the plastics used on those machines cannot withstand the impact forces - we have a video online showing you how to install or we can do the whole job for you.
