## Ruger precision mk2 Bolt Action .338 Rifles

£ 2,650

### Description

NEW Ruger Precision Mk2 2019 .338 Lap Mag Model: 18080 Caliber: 338 Lapua Mag Capacity: 5 Barrel Length: 26" StockFolding, Adjustable Length of Pull and Comb Height FinishType III Hard Coat Anodized Barrel Length26" BarrelCold Hammer-Forged, 5R Rifling Thread Pattern3/4"-24 Twist1:9.375" RH Grooves5 Weight15.2 lb. Capacity5 Height7.50" Overall Length49"-52.50" Length of Pull12.70" - 16.20" Folded Length40.35" Width3.50" In-line recoil path manages recoil directly from the rear of the receiver to the buttstock, not through a traditional bedding system, providing maximum accuracy potential. Cold hammer-forged chrome-moly steel barrel with 5R Rifling at minimum bore and groove dimensions, minimum headspace and centralized chamber. Ruger Marksman Adjustable™ trigger is externally adjustable with a pull weight range of 2.25 to 5 pounds; wrench is stored in the bolt shroud. Ruger® Precision MSR stock features a bottom Picatinny rail and soft rubber buttpad. The left-folding stock hinge accepts any AR-style stock. Length of pull and comb height are adjustable. Heavy-contour (.875" at the muzzle) barrel features a Ruger Precision® Rifle Magnum Muzzle Brake with tunable compensator to effectively reduce recoil and muzzle jump. 18" free-float handguard is made of hard anodized aluminum and features Magpul® M-LOK® accessory attachment slots on all four sides for improved scope clearance for long-range scopes and easy mounting of M-LOK-compatible rails and accessories. Ambidextrous manual safety for left- or right-handed lever manipulation. 30 MOA Picatinny rail secured with six, # 8-40 screws for increased long-range elevation capabilities. "Upper" receiver and one-piece bolt are precision CNC-machined from pre-hardened 4140 chrome-moly steel to minimize distortion. Three-lug bolt with 70° throw features dual cocking cams and a smooth-running, full diameter bolt body. Bolt body is nitrided for corrosion resistance, smooth operation and durability. Barrels can be replaced easily by a competent gunsmith using headspace gauges. Magazine well front is contoured for a positive grip when bracing against shooting supports. Oversized bolt handle for positive bolt manipulation, with a 5/16"-24 thread pattern for easy replacement. Bolt disassembly tool is stored in the Ruger Precision® Rifle Billet Aluminum Bolt Shroud for easy striker channel cleaning. "Lower" magazine well halves are precision machined from aerospace-grade 7075-T6 aluminum and are Type III hard coat anodized for maximum durability. Extended trigger-reach AR-style grip and 45° ambidextrous safety selector. May be configured with any AR-style grip and selector. Handguard includes integral QD sling attachment points to eliminate the need for additional adaptors, a target-style flat bottom that improves stability and an integral bottom 1.50" dovetail that is compatible with RRS S.O.A.R. and similar QD systems. Also includes: two, 5-round AI-Style magazines.

**Condition:** New

**Sale type:** Trade

**Make:** Ruger

**Model:** precision mk2

**Calibre:** .338

**Certificate:** Firearm - Section 1

**Orientation:** Ambidextrous

**Barrel length:** 26"

**Your reference:** 18080

**Gun Status:** Activated

**Recommended Usage:** Various
