Ruger precision Bolt Action 6.5 Creedmoor Rifles

£ 2,041

Description

Ruger Precision® Rifle 6.5 Creedmore StockFolding, Adjustable Length of Pull and Comb Height FinishType III Black Hard-Coat Anodized Barrel Length24" BarrelCold Hammer-Forged, 5R Rifling Thread Pattern5/8"-24 Twist1:8" RH Grooves5 Weight10.7 lb. Capacity10 Height7.30" Overall Length43.25"-46.75" Length of Pull12" - 15.50" Folded Length35.60" Width3.30" Suggested Retail\$1599.00 In-line recoil path manages recoil directly from the rear of the receiver to the buttstock, not through a traditional bedding system, providing maximum accuracy potential. Cold hammer-forged, chrome-moly steel barrel with 5R Rifling at minimum bore and groove dimensions, minimum headspace and centralized chamber. Patented multi-magazine interface functions interchangeably with AICS and M110/SR-25/DPMS/Magpul-style magazines (works with some M14 magazines). Ruger Marksman Adjustable™ trigger is externally adjustable, with a trigger pull range of 2.25 to 5 pounds; wrench is stored in the bolt shroud. Ruger Precision® MSR stock with QD sling attachment points features a bottom Picatinny rail and soft rubber buttpad. The left-folding stock hinge is attached to an AR-style buffer tube and accepts any AR-style stock. Length of pull and comb height are adjustable. Medium-contour (.75" at the muzzle) barrel features a Ruger Precision® Rifle Hybrid Muzzle Brake to effectively reduce recoil while minimizing noise and blast to the sides of the shooter. 15" aluminum free-float handguard is black hard-coat anodized aluminum and features Magpul® M-LOK® slots on all four sides for improved scope clearance for long-range scopes and easy mounting of M-LOK®-compatible rails and accessories. Ambidextrous manual safety for left- or right-handed lever manipulation. 20 MOA Picatinny rail secured with # 8-40 screws for increased long-range elevation capabilities. "Upper" receiver and one-piece bolt are precision CNC-machined from pre-hardened 4140 chrome-moly steel to minimize distortion. Three-lug bolt with 70° throw features dual cocking cams and a smooth-running, full diameter bolt body. Bolt body is nitrided for corrosion resistance, smooth operation and durability. Barrel can be replaced easily by a competent gunsmith using headspace gauges. Magazine well front is contoured for a positive grip when bracing against shooting supports. Oversized bolt handle for positive bolt manipulation, with a 5/16"-24 thread pattern for easy replacement. Bolt disassembly tool is stored in the Ruger Precision® Rifle Billet Aluminum Bolt Shroud for easy striker channel cleaning. "Lower" magazine well halves are precision machined from aerospace-grade 7075-T6 aluminum and are Type III hard-coat anodized for maximum durability. Extended trigger-reach AR-style grip and 45° ambidextrous safety selector. May be configured with any AR-style grip and selector. Also includes: two, 10-round Magpul® PMAG® magazines.

Condition: New

Sale type: Trade

Make: Ruger

Model: precision

Calibre: 6.5 Creedmoor

Certificate: Firearm - Section 1

Orientation: Right Handed

Your reference: 18029

Gun Status: Activated

Recommended Usage: Various
