Adjustable buttstock features a flat Picatinny bag rider making it easy to affix a rear monopod. A molded-in window provides a tether point for your squeeze bag, and a metal QD pocket makes it easy to secure a sling. Quick-Fit adjustable Precision Rimfire stock allows length of pull and comb height to be quickly and easily adjusted to get proper fit over a wide range of shooter sizes, outerwear and shooting positions. Indicating marks molded into the chassis help you quickly return to a previous position. Big-Gun bolt throw adjustment enables shooters to change from a rimfire 1-1/2" bolt throw to a short-action centerfire 3" bolt throw, reducing the chance of short-stroking your bolt in competition. Ruger Marksman Adjustable™ trigger is externally adjustable, with a trigger pull range of 2.25 to 5 pounds; wrench is stored in a buttstock compartment. Ruger's own AR-Pattern pistol grip and safety selector provides an extended reach for maximum control and access to the 45°, reversible safety selector. May be configured with most AR-style grips and selectors. Anodized 0 MOA Picatinny scope base makes it easy to mount and zero optics. Oversized bolt handle for positive bolt manipulation (same as the Ruger Precision® Rifle). 15" aluminum free-float handguard is black hard-coat anodized aluminum and features Magpul® M-LOK® slots on all four sides for improved scope clearance for long-range scopes and easy mounting of M-LOK-compatible rails and accessories. 18" target barrel is cold hammer-forged from 1137 alloy steel to create ultra precise rifling for excellent accuracy. Barrel can be replaced easily by a competent gunsmith using AR-style wrenches and headspace gauges. 1/2"-28 threaded barrel for standard muzzle accessories, like the Silent-SR® suppressor, comes with a factory-installed thread protector covering both the threads and crown. Accepts Ruger® magnum rimfire magazines, including the JMX-1 rotary magazine and the BX-15® Magnum magazine. Also includes: one, 15-round BX-15® Magnum magazine.
