Savage Arms Enfield No4 T Bolt Action .303 Rifles

£ 9,000

Description

Here we have a extremely rare .303 Lee Enfield No4 T with transit crate, binoculars and other accessories. This is a American made Savage Enfield that was used in trials when the British military where trying to determine if American made Enfields could be used as sniper rifles and which varient of british made scope worked the best. The rifle appears to be correct with all the correct markings. It doesn't have a matching scope as expected as they were regularly switched out during trials and testing. The special Holland & holland inspector stamp can be found near the bolt adding to the value and rarity of this piece. It's over all condition is incredibly especially for its age, the bore is mirror clean with very little wear if any you can't find much better and it will make a fantastic shooter and collectible piece for any milsurp collector. She comes with origional Harrods binoculars and case, also included is the scope and mount and scope case along with tools and the transport case. Only known American No4 T trials rifle on the market and this could be your only chance to pick her up! Easily the pride of one's collection!!! We are open to sensable offers for more information please call us or george on 07732153796
