Each and every one of their models was the best on the market at the time, however, none have brought such an enormous leap forward for the end user as the new CZ 457 family. The accuracy has considerably improved with the use of a new adjustable trigger mechanism with a low trigger pull weight and excellent travel, a noticeably lighter striker and a new type of bedding. A literally revolutionary innovation is the extremely durable anti-corrosion surface finish of the metal parts this technology currently has no equal on the market.
