**IMI - Israel Military Industries Galil SAR Straight
Pull .223 Rifles**

£ 1,500

Description

IMI Galil SAR MLR Chambered in .223 rem, the rifle was first adopted by the IDF in 1972, the first prototypes began as simple modifications of captured AKM by Yisrael Galili (formerly Yisrael Balashnikov!). Further design features from Finnish Valmets were later incorporated into the final design. In order to same damage to the magazines, a bottle opener was included at the rear of the handguard! we offer the AR version for £1000 or the SAR for £1500 Short or long barrel
