## GSG Mp40 PAK Semi-Auto 9 mm Rifles

£ 498

### Description

GSG MP40 - Blank firer Caliber 9 mm P.A.K. Overall length 837 mm Overall height 286 mm Overall width 75 mm Weight 3.335 g Barrel length 253 mm Rifling length - Number of grooves - Sight length 395 mm Trigger pool. 2.500 g Magazine Capacity 25 System Blowback Action The blank firing MP40 by G.S.G. features: 9mm P.A.K. blanks. Semi Automatic (fires one shot which each pull of the trigger). y Automatic ejects and loads a new blank into the chamber. Bolt works like the real one flying back after each round. Top vents just above the magazine (UK legal specs states that it must vent close enough to the point of discharge so that if the barrel is cut at the start of the barrel blockage there is no barrel left to convert it into a live firer). Proper magazine catch release. Magazine holds 25 rounds. Hold back on last round. Safety catch on the underside of the gun. Full size metal replica. Working folding stock. Made in Germany. Full UK legal.
