Zastava Ak47 M70 Straight Pull 7.62x39 Rifles

£ 950

Description

Zastava Ak47 / M70 Serbian Zastava M05E series rifles are modernised, upgraded versions of famously known "Serbian Kalashnikov" M70 assault rifle. The original version features stainless steel bolt and bolt carrier, black polymer furniture including tactical handguards with Picatinny rails, side-folding buttstock and authentic AKM muzzle brake. The M05E rifles are based on super strong RPK stamped receiver, which is 1.5mm thick, instead of 1mm used to build the older AKMs, while the M05E3 version offers a Picatinny dust cover hinged to the front trunion with a built-in flip-up rear iron sight. The barrel is made by cold forging and is chrome plated, which guarantees long service life and exceptional accuracy. In accordance with the UK law requirements, M05E rifles were manufactured as straight-pull (single-shot) rifles. Our package includes TWO magazines This rifle has only fired around 2 boxes of ammo to bed her in and now ready to go
